Assembly Instructions

Press to fuse the Fusible Fleece 5-5/8" x 9" rectangle to the wrong side of the outside fabric 5-5/8" x 9" rectangle. Print the template on the template page and cut out. Place the template on the outside fabric, aligning the flap with one 5-5/8" end of the 5-5/8" x 9" rectangle. Pin in place. Cut out on the solid black line. Do not cut the dashed line. Place the template on the lining fabric and repeat. Place the outside fabric and lining right sides together. Pin.

Stitch pieces together using a 3/8" seam allowance starting on one long side at least 1" from the bottom 5-5/8" end. Leave a 2-1/2" opening for turning.

Assembly Instructions

Clip corners.

Turn right side out.

Push out corners for a professional look. Press flat.

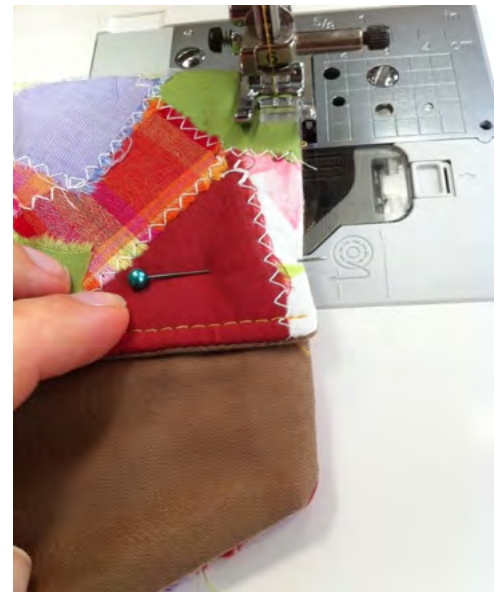

Topstitch using a 3/8" seam allowance across the bottom straight edge.

Fold the bottom straight edge up 3". Pin in place at sides. Make sure the 2-1/2" opening is tucked in to the seam allowance on the side. Starting at the folded edge, stitch around the entire holder using a 3/8" seam allowance.

NOTE: Backstitching a few stitches at the top of the fold will reinforce the edge.

Mark and attach snaps or Velcro® closure. Mark the snap placement on the flap first. Fold the flap to align and mark the other half of the snap.
